Professional Summary

Performance-driven Frontend Developer specializing in React, Next.js, TypeScript, Tailwind CSS, and modern JavaScript (ES6+), with expertise in building scalable, responsive, high-performance user interfaces with Lighthouse scores of 95+.

Technical Skills

Languages/Core Skills: - HTML5, CSS3, JavaScript (ES6+), TypeScript, SQL

Libraries & Frameworks: React.js, Redux, Tailwind CSS, GSAP, Three.js, Git, Jest, Figma, Vercel.

Experience

Connect2Roots Foundation

June 2025 – Present

Frontend Web Developer (Internship)

Karnataka, India (Remote)

- Led the end to end design, development, and launch of the Connect2Roots Academy website under Connect2Roots Foundation, a subsidiary platform of Connect2Roots Foundation, delivering a user focused, fully responsive, and easy to navigate digital experience.
- Built and integrated a secure Firebase-based authentication system, significantly reducing login-related issues and improving the overall onboarding flow.
- Architected and deployed a scalable, component-based frontend that improved site performance by 40%, while delivering a modern, high-performance user interface using strong UI/UX principles and dynamic GSAP animations to enhance user engagement and visual appeal.

Projects

SlateBoard : Documentation & Whiteboard Tool | *Next.js , TypeScript , Convex*

- Developed “Slateboard”, a high performance split screen whiteboard and documentation web application using Next.js and TypeScript, enabling simultaneous writing and sketching, achieving a Lighthouse score of 95+ and first meaningful load time under 2 seconds through performance optimization.
- Integrated Editor.js, Excalidraw Canvas APIs, Convex backend, and Clerk authentication with a modern, responsive UI built using shadcn/ui, ensuring secure authentication, scalable data handling, and cross device compatibility.
- Implemented efficient state management and real time data synchronization to save, fetch, and persist user documents with low latency workflows, delivering smooth editing performance and reliable backend communication.

Code-Hive : Frontend Code Editor App | *HTML5, CSS3, Javascript, React.js*

- Developed a real-time code editor for HTML, CSS, and JavaScript, React.js and CodeMirror with an intuitive UI.
- Integrated a dynamic preview feature for instant visualization of changes, enhancing user productivity.
- Overcame challenges integrating CodeMirror with React and dynamically injecting user code into a live preview iframe securely and efficiently.
- Implemented real-time preview rendering using iframe and optimized performance with debounced state updates.

Frontend Fun Pack : 50 Mini Creations | *HTML5, CSS3, Javascript,*

- Made using HTML, CSS, and Vanilla JavaScript, showcasing a strong foundation in core frontend development.
- Includes a wide range of creative projects like Theme Clock, Hoverboard, Drawing App, Drinking Water Tracker, Movie App, and many more.
- Projects are ready to use features that anyone can directly plug into their website, such as password generators, button effects, form animations, loaders, and toast notifications.

Macbook M4 : Demo Landing Page | *React.js, Tailwindcss, Three.js,*

- Developed an immersive, interactive product showcase using React, Three.js, GSAP, and custom shaders, transforming static specifications into dynamic visual storytelling and improving user engagement through scroll-triggered animations and high-performance rendering.

Education

Sri Aurobindo College , Delhi University

Bachelor of Arts – History

July 2018 – April 2021

New Delhi, India

Certifications

Meta Front-End Developer Professional Certificate - Coursera (Nov 2023 – Jun 2024)

The Complete Web Development Bootcamp - Udemy (Dr. Angela Yu) (Feb 2023 – Dec 2023)

Python Bootcamp – Zero to Hero - Udemy (Jan 2023 – Jul 2023)
